

FEEL THE DIFFERENCE

ABOUT US

Established in the year 2014, iLux Electricals Pvt. Ltd. is a newly emerged enterprise that provides intelligent lighting solutions for both indoor and outdoor requirements. It was incepted with a motive to provide high-quality products and components for intelligent lighting solutions. We maintain a huge variety of indoor and outdoor products which are best in quality, elegant in design, superior in features, energy-efficient and are available for any possible lighting applications. These world-class products are superior in performance and are known for their longer shelf life. Our experts work hard to know the requirements of patrons. Together with this, our team members are in constant dialogue with the clients & customers that help them cater to their exact needs.

VISION

Offering affordable world-class quality lighting products & solutions with integrity and honesty and building healthy relations with our employees, customers, channel partners & associates to achieve our vision consistently.

MISSION

To be recognized as the most trusted & reliable brand among our customers and the society we live in and to make India lit by offering high performance & global standard products at affordable prices.

FOUNDERS STORY

iLux Electricals was set up in the year 2014 by two lighting industries young professionals by combining their work experience with some of the world-class companies like Vossloh Schwabe - Germany, Panasonic - Japan, Havells & Anchor by Panasonic.

HOLGER HOFFMANN

Co-Founder

With 40+ years of experience in lighting & designing experience in the LED Lighting work area, Sandeep Agrawal & Holger Hoffmann introduces iLux Lightings in India, as a way to make it more affordable and cost-effective for its customers to upgrade to efficient lighting.

iLux electricals began with a dream to change the image of the lighting industry & products in India and to serve world-class lighting products with intelligence incorporation.
